

40
YEARS

Habitat
for Humanity®
of Wisconsin River Area

*The roots of Habitat for Humanity were founded 80 years ago on Koinonia Farm, as an opportunity to put **faith into action.** With a shared belief in dignity through **partnership,***

*we continue to strive for our vision of a world where **EVERYONE** has a decent place to live.*

Just three years after Habitat International was founded, Rev. Philip Yeager began milling lumber from his tree

farm in rural Lone Rock to build the first Habitat homes in Wisconsin.

In 1984 we officially became the first Habitat for Humanity affiliate in Wisconsin, and tenth in the nation.

Chapters in Dodgeville, Portage and Platteville soon followed.

Today, Habitat for Humanity of Wisconsin River Area serves five counties across south-central Wisconsin. Our combined history offers the opportunity to **serve more families in need** of affordable housing.

What a wonderful time to celebrate **FOUR** decades of community! What started as a small group of volunteers with a shared vision has grown into something truly special.

241 houses built and repaired.

348 children in stable homes.

12,160 tons of repurposed items.

3.2M volunteer hours in service to families.

Habitat for Humanity changes lives.

We provide families with the opportunity to own a home, make necessary repairs, and source usable goods to improve their homes. For this, we are truly thankful for wonderful people like ***you***. Your support does more than make this possible; you help **strengthen our community.**

Since 1984, support from people like you has built homes, communities and hope for local families. **Now we need your help to continue our work in the coming year.** Your gift helps families achieve the dream of a stable future for their children.

What could be a better gift than the gift of home?

In 2024, we completed our 87th home with the Sandoval family, made 103 homes safer through critical home repairs, and joined the Green Bay Packers to make the day very special for one little boy.

*Planting seeds today nurtures
growth for a brighter tomorrow.*

Thank you! Your donation directly supports safe, affordable homes right here in our community. It's a step towards stability and a brighter future for families.
